SUBJECT INDEX TO VOLUME 160

ABDOMEN
surgery, reconstruction, aorta, and ischemic colitis, 299
trauma, aortic, critical factors in determining mortality from, 313
blunt, peritoneal lavage, in patients with normal mentation and hematuria after, 145
wall, gastroschisis, repair, primary, with umbilicoplasty, 464
wounds, shotgun, clinical review of, 148
Antibiotics
antimicrobial agents, experimental, bacterial inoculum and activity of, 105
cefamandole, prophylaxis with, in high risk patients undergoing operations upon biliary tract, 27
prophylactic, and closed tube thoracostomy, 259
Anticoagulants
systemic, venovenous bypass without, for transplantation of human liver, 270
Anus
fissure, treatment, sclerotherapy, 204
Aorta
abdominal, reconstruction, and ischemic colitis, 299
trauma, critical factors in determining mortality from, 313
Ascites
neonatal, intractable, small tube peritoneovenous shunting for management of, 275

BACTERIA
chlamydial, salpingitis, and periappendicitis, 304
enterococcal, bacteremia, mortality associated with, 557
experimental, inoculum, and activity of antimicrobial agents, 105
streptococcal, bacteremia in hepatobiliary operations, 139
Biliary tract
calculi, removal, new forceps for, 360
drainage, percutaneous, as initial therapy in sepsis of, 523
ducts, anastomosis, experimental, healing, after transverse choledochotomy, or transplantation of liver, 33
common, cystic dilation of, 115
guided dilators for, 569
television choledochoscopy, 176
experimental, pressure, effect of alcohol upon myoelectric activity of, 528
roentgenography, operative ultrasonography, during pregnancy, 119
surgery, ducts, transverse, experimental, healing of anastomosis of, or transplantation of liver, after, 33
and liver, streptococcal bacteremia in, 139
prospective randomized controlled study of prophylaxis with cefamandole in high risk patients, 27
ultrasonography, during pregnancy, 119
Blood
anemia, beta thalassemia homozygous, in Greece, prophylactic cholecystectomy during splenectomy for, 9
bacteremia, enterococcal, mortality associated with, 557
streptococcal, in hepatobiliary operations, 139
bromine, postoperative changes in value of, 243
cancer; carcinoma, leukemia, acute, chemotherapy, autopsy findings after prolonged catheterization of right atrium for, 417
dialysis, continuous ambulatory peritoneal catheters, in infants and children, new technique for placement of, 362
disease, leukemia, the limited role of splenectomy in, 291
hemodialysis, popliteal artery to saphenous vein vascular access for, 358
hemodilution, effect upon intermittent claudication, 347
hemorrhage, experimental, cardiac response to fluid resuscitation from, 444
obstetric, efficacy of internal iliac artery ligation in, 250
shock, clinical, endogenous opioid activity in, 547
experimental, cardiovascular effects of intravenously given ATP-$MgCl_2$ in, 195
variceal, massive, portoazygos disconnection for, simplified one stage modification of, 171
lymphocytes, peripheral, role in prediction of recurrence in Crohn's disease, 295
mortality, associated with enterococcal bacteremia, 557
plasma, thromboxane, lack of effect of glucocorticoids, in patients in shock, 320
platelets, decrease, secondary to portal hypertension, splenectomy is contraindicated for, 233
rapid warming of infusion solution, 400
sepsis, of biliary tract, percutaneous biliary drainage as initial therapy in, 523
serum, bromine, postoperative changes in value of, 243
urine, peritoneal lavage in patients with, and normal mentation, after blunt trauma, 145
Blood pressure
high, portal, and thrombocytopenia secondary to, splenectomy as a contraindication for, 233
Blood vessels
arteries, axillofemoral, bypass grafts, knitted Dacron, delayed occlusion of, thrombolytic therapy for, 491
carotid, endarterectomy, intraoperative arteriography after, technique for, 367
endarterectomy, carotid, intraoperative, arteriography after, technique for, 367
femoropopliteal, bypass, for advanced ischemia of extremity, patency of autogenous saphenous vein versus polytetrafluoroethylene grafts in, 239
bypass grafts, knitted Dacron, delayed occlusion of, thrombolytic therapy for, 491
femorotibial, bypass grafts, knitted Dacron, delayed occlusion of, thrombolytic therapy, 491
iliac, internal, ligation, in obstetric hemorrhage, efficacy of in, 250
popliteal, to saphenous vein, for vascular access for hemodialysis, 358
right hepatic, simplified technique for revascularization of homografts of liver with, from superior mesenteric artery, 474
superior mesenteric, simplified technique for revascularization of homograft of liver with variant right hepatic artery from, 474
surgery, bypass graft, improved tunneling procedures for, 78
arteriovenous, fistulas, in situ vein graft, Doppler identification of, 562
combined vessel loop control, and exposure, for Cimino-Brescia fistulas, 87
grafts, Dacron, knitted, delayed occlusion, thrombolytic therapy, in axillofemoral, femoropopliteal and femorotibial positions, 491
venous, in situ, arteriovenous fistulas, Doppler identification of, 562
roentgenography, intraoperative, technique, after carotid endarterectomy, 367

shunt, peritoneovenous, small tube, for management of neonatal intractable ascites, 275
surgery, new vascular clamp, 264
veins, bypass, without systemic anticoagulants, for transplantation of human liver, 270
central, catheters, permanent, less traumatic subcutaneous tunnel for, 277
grafts, in situ, arteriovenous fistulas, Doppler identification of, 562
renal, right, extend, use of vena cava to, in cadaveric transplantation, 279
saphenous, grafts, autogenous, versus polytetrafluoroethylene, patency of, in femoropopliteal bypass for advanced ischemia of extremity, 239
to popliteal artery, for vascular access for hemodialysis, 358
vena cava, use of, to extend right renal vein, in cadaveric transplants, 279
Bone
ribs, first, resection, anterior approach, and total scalenotomy, 275
Breast
cancer; carcinoma, associated with pregnancy, 228
in fibroadenomatous tumors of, management of, 99
treatment, delay in, 393
roentgenography, in women less than 40 years old, 220
tumors, fibroadenomatous, and carcinoma, management of, 99

Cancer
blood, carcinoma, leukemia, acute, chemotherapy, autopsy findings after prolonged catheterization of right atrium for, 417
breast, carcinoma, associated with pregnancy, 228
carcinoma, in fibroadenomatous tumors of, management of, 99
treatment, delay in, 393
buccal mucosa, carcinoma, squamous cell, current therapeutic modalities, clinical behavior and results of, 254
cardia, carcinoma, and lower part of esophagus, esophagogastrectomy without thoracotomy for, 49
chemotherapy, right atrium, in acute leukemia, autopsy findings after prolonged catheterization of, 417
colon, carcinoma, and rectum, unresectable hepatic metastases from, 429
esophagus. carcinoma, lower part, and cardia, esophagogastrectomy without thoracotomy for, 49
carcinoma, surgical treatment, in elderly, 317
metastases, liver, unresectable, from carcinoma of colon and rectum, 429
mouth, squamous cell, lower lip, surgery, microscopically controlled, 37
rectum, carcinoma, and colon, unresectable hepatic metastases from, 429
carcinoma, mid portion, recurrence, after stapled coloproctostomy, 513
recurrence, rectum, mid portion, after stapled coloproctostomy, 513
stomach, adenocarcinoma, surgical treatment, in community hospital, 153
surgery, esophagus, carcinoma, in elderly, 317
survival, factors influencing, of patients with follicular carcinoma of thyroid gland, 409
thyroid, carcinoma, follicular, factor influencing survival, 409
treatment, delay, of carcinoma of breast, 393
esophagogastrectomy without thoracotomy, for carcinoma of cardia and lower part of esophagus, 49
Catheter
central venous, permanent, less traumatic subcutaneous tunnel for, 277
continuous ambulatory peritoneal dialysis, in infants and children, new technique for placement of, 362
Hickman, placement, use of Amplatz heparin-coated wire guide for, 81
Wick, for compartment pressure measurement, 207
Catheterization
modification of procedure for totally implantable infusion pump, 76
of right atrium, for chemotherapy in acute leukemia, autopsy findings after prolonged use of, 417
Claudication
intermittent, effect of hemodilution upon, 347
Collective review
Asymptomatic Carotid Disease, 89
Hepatic Artery Infusion for Metastatic Neoplastic Disease, 477
Hepatobiliary Disorders in Inflammatory Bowel Disease, 187
Surgical Approach to Primary Malignant Melanoma, 379
Surgical Management of Lymphedema, 283
Urologic Considerations in Renal Transplanation, 579
Corticosteroids
glucocorticoids, lack of effect upon plasma thromboxane, in patients in shock, 320
Cysts
common bile duct, dilation of, 115

Disease
Crohn's, role of peripheral lymphocytes in prediction of recurrence in, 295
surgical management of, role of resection margin frozen section in, 57
pathogenesis, incidence and outcome, differences, of perforation in inflammatory intestinal disease, 63
Drugs
immunosuppressive, experimental, cyclosporin A, and standard agents, comparison of effects of on primary wound healing, 135
metronidazole, peritoneal lavage with, 335
terbutaline, for inhibition of pancreatic secretion, a potential agent for treating pancreatic fistulas, 109

Editorial
Where Have All the Surgeon's Gone? 157
Electron microscopy
experimental, use in evaluating influence of danazol upon uterus, 421
Endoscopy
fiber-, for removal of foreign bodies of upper part of gastrointestinal tract, 499
jejunal feeding tube through decompressing gastrostomy, 173
Esophagus
cancer; carcinoma, lower part, and cardia, esophagogastrectomy and thoracotomy, 49
surgical treatment, in elderly, 317
surgery, for carcinoma of, in elderly, 317
excision, without thoracotomy, for carcinoma of cardia and lower part of, 49
transection versus injection sclerotherapy, in management of bleeding esophageal varices in patients at high risk, 539
varices, transection, stapled, results in 100 patients, 323
varix, bleeding, treatment, transection versus injection sclerotherapy, in patients at high risk, 539
hemorrhage, massive, portoazygos disconnection, simplified one stage modification of, 171
transection, stapled, results in 100 patients, 323
Extremities
ischemic, 347
lower, ischemia, advanced, femoropopliteal bypass for, autogenous saphenous vein versus polytetrafluoroethylene grafts in, 239

Face
cheek, cancer; carcinoma, squamous cell, current therapeutic modalities, clinical behavior and results of, 254
Fat
20 per cent emulsion, efficacy of, as

peripherally administered substrate, 387

GALLBLADDER
surgery, prophylactic, during splenectomy, for beta thalassemia homozygous, in Greece, 9
Gastrointestinal tract
appendix, peri-, inflammation, and chlamydial salpingitis, 304
surgery, proximal decompression tube, with pull through procedures, in pediatric operations, 168
disease, Crohn's, surgical management, role of resection margin frozen section in, 57
experimental, effect of alcohol upon myoelectric activity of, 528
perforation, and peritonitis, in infants, 20
surgery, appendix, tube, proximal decompression by, with pull through procedures in pediatric operations, 168
Crohn's disease, role of resection margin frozen section in, 57
fiberendoscopic removal of foreign bodies of, 499
tumors, lymphoma, primary, 5
upper, fiberendoscopic removal of foreign bodies of, 499

HEAD
trauma, acute, energy expenditure, with and without barbiturate therapy, 128
tumors, neurofibroma, 534
Heart
atrium, left, appendage, use of surgical stapler to obliterate, 565
right, prolonged catheterization of, for chemotherapy in acute leukemia, autopsy findings after, 417
resuscitation, fluid, experimental, response to, from hemorrhagic shock, 444
valves, replacement, with porcine xenograft prosthesis, pregnancy after, 437
Hernia
inguinal, recurrent, repair, with Marlex mesh, 505
Hospitals
community, surgical treatment of adenocarcinoma of stomach in, 153

INFANTS
ascites, intractable, management, small tube peritoneovenous shunting for, 273
new technique for placement of continuous ambulatory peritoneal dialysis catheters in, 362
newborn, necrotizing enterocolitis, resection, reconstitution of intestinal continuity after, 330
perforation of the gastrointestinal tract and peritonitis in, 20
Infection
cytomegalovirus, in patients undergoing noncardiac operations, 13
Infusion
rapid warming of solution, 400
Instruments and apparatus
Amplatz heparin-coated wire guide for placement of Hickman catheter, 81
clamp, vascular, new, 264
Doppler, identification of in situ vein graft arteriovenous fistulas, 562
drains, suction, expanded use of, 469
EEA stapler, reverse end insertion technique for rectal anastomosis with, 266
use in anastomosis of small intestine, 163
forceps, for removal of biliary tract stones, 360
guided dilators for common bile duct, 569
improved tunneling procedures for bypass grafting, 78
modification of catheterization procedure for totally implantable infusion pump, 76
needle biopsy, of skeletal muscle, using suction, 466
streamlined fluorescein photography, 356
surgical stapler, use of, to obliterate left atrial appendage, 565
tube, new, for simultaneous gastric decompression and jejunal alimentation, 369
universal tunneling device, 470
ventilators, simple technique for enteral feeding in patients on, 83
Intestines
anastomosis, end to side, ileum and rectum, 567
cancer; carcinoma, colon and rectum, unresectable hepatic metastases from, 429
cecum, volvulus, surgery, combining cecopexy with intestinal tube decompression, 84
colon, cancer; carcinoma, and rectum, unresectable hepatic metastases, 429
inflammation, ischemic, complicating reconstruction of abdominal aorta, 299
necrotizing, neonatal, reconstitution of intestinal continuity after resection for, 330
ulcerative, modified Hartmann procedure for, 462
surgery, and rectum, stapled, recurrence of carcinoma of mid portion of rectum after, 513
disease, inflammatory, perforation, differences in pathogenesis, incidence and outcome in, 63
duodenum, surgery, and pancreas, new approach for reconstruction of continuity of alimentary tract after, 453
surgery, and pancreas, pylorus-preserving, delayed gastric emptying after, 1
ulcers, and stomach, selective proximal vagotomy and pyloroplasty in, changes in cell population of antrum after, 211
ileum, and rectum, anastomosis, end to side, 567
jejunum, alimentation, and simultaneous gastric decompression, new tube for, 369
endoscopic feeding tube, through decompressing gastrostomy, 173
surgery, and pancreas, long term results, in chronic pancreatitis, 339
rectum, anastomosis, technique, reverse end insertion for, with EEA stapler, 266
cancer; carcinoma, and colon, unresectable hepatic metastases from, 429
mid portion, recurrence, after stapled coloproctostomy, 513
and ileum, anastomosis, end to side, 567
small, anastomosis, use of EEA stapling device in, 163
excluding from field of postoperative irradiation to pelvis, by omental envelope, 365
surgery, colon and rectum, stapled, recurrence of carcinoma of mid portion of rectum after, 513
duodenum, and pancreas, new approach for reconstruction of continuity of alimentary tract after, 453
and pancreas, pylorus-preserving, delayed gastric emptying after, 1
ileum and rectum, anastomosis, end to side, 567
jejunum and pancreas, long term results, in chronic pancreatitis, 339
resection, for neonatal necrotizing enterocolitis, reconstitution of intestinal continuity after, 330
ulcers, gastroduodenal, selective proximal vagotomy and pyloroplasty in, changes in cell population in antrum after, 211

LIGATION
internal iliac artery, efficacy of, in obstetric hemorrhage, 250
Liver
biopsy, wedge, simplified method of, 354
metastases, unresectable, from carcinoma of colon and rectum, 429
surgery, and biliary tract, streptococcal bacteremia in, 139
homograft revascularization, simplified technique, with variant right hepatic artery from superior mesenteric artery, 474
transplantation, experimental, healing of bile duct anastomosis

after transverse choledochotomy or, 33
venovenous bypass without systemic anticoagulation for, 270

METABOLISM
experimental, response of intrasplenic islet autografts, 552
Mouth
lip, lower, cancer; carcinoma, squamous cell, surgical treatment, microscopically controlled, 37
surgery, lower lip, for squamous cell carcinoma, microscopically controlled, 37
Muscles
scalenus, surgery, total, and anterior approach for resection of first rib, 275
skeletal, biopsy, needle, using suction, 466
surgery, scalenus, total, and anterior approach for resection of first rib, 275

NECK
tumors, neurofibroma, 534
wounds and injuries, penetrating, exploration, mandatory, critical reappraisal of, 517
Nerves
cranial, vagus, excision, proximal, selective, and pyloroplasty, in gastroduodenal ulcer, changes in cell population in antrum after, 211
peripheral, tumor, neurofibroma, head and neck, 534
Nutrition
alimentation, peripherally, 20 per cent fat emulsion, efficacy of, 387
enteral, simple technique, for patients on ventilators, 83

OBSTETRICS
hemorrhage, efficacy of internal iliac artery ligation in, 250

PANCREAS
ducts, experimental, pressure, effect of alcohol upon myoelectric activity of, 528
experimental, metabolic response of intrasplenic islet autografts, 552
fistula, inhibition of secretion of by terbutaline as potential agent for treatment of, 109
inflammation, acute, peritoneal lavage in, diagnostic and prognostic value in, 507
chronic, long term results of pancreaticojejunostomy for, 339
total pancreatectomy for, 223
secretion, inhibition, by terbutaline as potential agent for treating patients with fistula of, 109
surgery, and duodenum, new approach from reconstruction of alimentary tract after, 453
and jejunum, long term results, in chronic pancreatitis, 339
pylorus-preserving, and duodenum, delayed gastric emptying after, 1
simple technique for resection of uncinate process during, 166
total, for chronic pancreatitis, 223
uncinate process, resection, simple technique, during pancreatectomy, 166
Parathyroid glands
disease, hyperparathyroidism, secondary, intraoperative localization of, using methylothionine chloride tetramethylthionine chloride in, 42
hyper-, primary, lesions of thyroid gland in patients with, 407
Pediatrics
new technique for placement of continuous ambulatory peritoneal dialysis catheters in, 362
surgery, proximal decompression by tube appendicostomy with pull through procedures in, 168
Pelvis
radiation therapy, postoperative, construction of omental envelope for excluding small intestine from, 365
Pericardium
surgery, left subcostal approach to, 414
Peritoneum
ambulatory dialysis catheters, continuous, in infants and children, new technique for placement of, 362
inflammation, and perforation of gastrointestinal tract, in infants, 20
lavage, with metronidazole, 335
in patients with acute pancreatitis, diagnostic and prognostic value of, 507
with normal mentation and hematuria, after blunt trauma, 145
surgery, shunt, and venous, small tube, for management of neonatal intractable ascites, 273

RADIATION
therapy, pelvis, postoperative, excluding small intestine from by construction of omental envelope, 365
Roentgen rays
diagnosis, mammography, in women less than 40 years old, 220
ultrasonography, operative, during pregnancy, 119

SALINE
warming, rapid, 400
Sclerotherapy
for treatment of fissure in ano, 204
versus esophageal transection, in management of bleeding esophageal varices in patients at high risk, 539
Serum
bromine, postoperative, changes in value of, 243
Shock
experimental, hemorrhagic, cardiac response to fluid resuscitation from, 444
hemorrhagic, clinical, endogenous opioid activity in, 547
experimental, cardiac response to fluid resuscitation from, 444
intravenously given ATP-$MgCl_2$ in, cardiovascular effects of, 195
septic, lack of effect of glucocorticoids upon plasma thromboxane in patients in, 320
Spleen
excision, contraindicated for thrombocytopenia secondary to portal hypertension, 233
intra-, islet, experimental, autografts, metabolic response, 552
surgery, limited role in patients with leukemia, 291
prophylactic cholecystectomy during, for beta thalassemia homozygous, in Greece, 9
Stomach
antrum, changes in cell population in, after selective proximal vagotomy and pyloroplasty in gastroduodenal ulcers, 211
cancer; carcinoma, adenocarcinoma, surgical treatment, in community hospital, 153
cardia, cancer; carcinoma, and lower part of esophagus, esophagogastrectomy without thoracotomy for, 49
decompression, simultaneous, new tube for, and jejunal alimentation, 369
emptying, delayed, after pylorus-preserving pancreaticoduodenectomy, 1
pylorus, preserving, pancreaticoduodenectomy, delayed gastric emptying after, 1
surgery, plastic, and selective proximal vagotomy, in gastroduodenal ulcer, changes in cell population in antrum after, 211
surgery, adenocarcinoma, in community hospital, 153
continent, long term, technique for, 73
decompressing, endoscopic jejunal feeding tube through, 173
excision, and esophagus, without thoracotomy, for carcinoma of cardia and lower part of esophagus, 49
nerves, vagus, selective, proximal and pyloroplasty, in gastroduodenal ulcer, changes in cell population in antrum after, 211
ulcers, and duodenum, selective proximal vagotomy and pyloroplasty in, changes of cell population in antrum after, 211
Surgeon's library
Edward Wilson—Explorer, Naturalist and Surgeon, 373
Fatal Wound of General Braddock, 571

Hippocrates, True Father of Hand Surgery, 178
Surgery
blood, improved tunneling procedures for bypass grafting, 78
new vascular clamp, 264
consensus process to determine relative complexity-severity of frequently performed surgical services, 403
experimental, bacterial inoculum and activity of antimicrobial agents, 105
cardiac response to fluid resuscitation from hemorrhagic shock, 444
cardiovascular effects of intravenously given ATP-$MgCl_2$ in hemorrhagic shock, 195
comparison of effects of cyclosporin A and standard agents on primary wound healing, 135
effect of alcohol upon myoelective activity of gastrointestinal tract and pancreatic and biliary duct pressures, 528
evaluation of danazol influence upon uterus, using scanning electron microscopic morphometric and biochemical analysis, 421
healing of bile duct anastomosis, after transverse choledochotomy or transplantation of liver, 33
metabolic response of intrasplenic islet autografts, 552
intraoperative communication, 268
morbidity and mortality, associated with enterococcal bacteremia, 557
critical factors in, from abdominal aortic trauma, 313
noncardiac procedures, cytomegalovirus infection in, 13
postoperative results, changes in serum bromine value, 243
long term, of pancreaticojejunostomy, in chronic pancreatitis, 339
postoperative study, aggressive fibromatosis, 124
autopsy findings after prolonged catheterization of right atrium for chemotherapy in acute leukemia, 417
carcinoma, of breast associated with pregnancy, 228
of esophagus in elderly, 317
changes in cell population in antrum after selective proximal vagotomy and pyloroplasty in gastroduodenal ulcer, 211
clinical behavior and results of current therapeutic modalities for squamous cell carcinoma of buccal mucosa, 254
continuing problem of tetanus, 307
critical factors in determining mortality from abdominal aortic trauma, 313
critical reappraisal of mandatory exploration policy for penetrating wounds of neck, 517
cystic dilation of common bile duct, 115
cytomegalovirus infection in patients undergoing noncardiac operations, 13
delay, in treatment of carcinoma of breast, 393
in gastric emptying after pylorus-preserving pancreaticoduodenectomy, 1
diagnostic and prognostic value of peritoneal lavage in patients with acute pancreatitis, 507
differences in pathogenesis, incidence and outcome of perforation in inflammatory intestinal disease, 63
efficacy of internal iliac artery ligation in obstetric hemorrhage, 250
endogenous opioid activity in clinical hemorrhagic shock, 547
esophageal transection versus injection sclerotherapy in management of bleeding esophageal varices in patients at high risk, 539
esophagogastrectomy without thoracotomy, for carcinoma of cardia and lower part of esophagus, 49
factors influencing survival of patients with follicular carcinoma of thyroid gland, 409
fiberendoscopic removal of foreign bodies of upper part of gastrointestinal tract, 499
inhibition of pancreatic secretion by terbutaline as potential agent for treating pancreatic fistulas, 109
intraoperative localization of parathyroid glands, using methylothionine chloride tetramethylothionine chloride, in secondary hyperparathyroidism, 42
ischemic colitis complicating reconstruction of abdominal aorta, 299
left subcostal approach to pericardium, 414
lesions of thyroid gland in patients with hyperparathyroidism, 407
limited role of splenectomy in patients with leukemia, 291
mammography in women less than 40 years old, 220
management of patients with carcinomas in fibroadenomatous tumors of breast, 99
microscopically controlled surgical treatment for squamous cell carcinoma of the lower lip, 37
mortality associated with enterococcal bacteremia, 557
neurofibromas of head and neck, 534
new approach for reconstruction of continuity of alimentary tract after pancreaticoduodenectomy, 453
operative ultrasonography in biliary tract during pregnancy, 119
patency of autogenous vein versus polytetrafluoroethylene grafts in femoropopliteal bypass for advanced ischemia of extremity, 239
percutaneous biliary drainage as initial therapy in sepsis of biliary tract, 523
perforation of gastrointestinal tract and peritonitis in neonates, 20
periappendicitis and chlamydial salpingitis, 304
peritoneal lavage, with metronidazole, 335
in patients with normal mentation and hematuria after blunt trauma, 145
pregnancy after valve replacement with porcine xenograft prosthesis, 437
primary lymphoma of gastrointestinal tract, 5
prophylactic antibiotics and closed tube thoracostomy, 259
prophylactic cholecystectomy during splenectomy for beta thalassemia homozygous, in, 9
of prophylaxis with cefamandole in high risk patients undergoing operation upon the biliary tract, 27
reconstitution of intestinal continuity after resection for neonatal necrotizing enterocolitis, 330
recurrence after stapled coloproctostomy for carcinoma of mid portion of rectum, 513
repair of recurrent inguinal hernia with Marlex mesh, 505
results in 100 patients with stapled esophageal transection for varices, 323
role, of peripheral lymphocytes in prediction of recurrence in Crohn's disease, 295
of resection margin frozen section in Crohn's disease, 57
sclerotherapy for fissure in ano, 204
shotgun wounds to chest and abdomen, clinical review of, 148
splenectomy is contraindicated for thrombocytopenia secondary to portal hypertension, 233
streptococcal bacteremia, in hepatobiliary operations, 139
surgical treatment of adenocarcinoma of stomach in community hospital, 153

thrombolytic therapy for delayed occlusion of knitted Dacron grafts in axillofemoral, femoropopliteal and femorotibial positions, 491
total pancreatectomy for chronic pancreatitis, 223
reconstructive, abdominal aorta, complicated by ischemic colitis, 299
related applications of computerized operating room data, 17
technique, anterior approach for resection of first rib and total scalenotomy, 275
cecal volvulus, combining cecopexy with intestinal tube decompression, 84
combined vessel loop vascular control and exposure for Cimino-Brescia fistulas, 87
Doppler identification of in situ vein graft arteriovenous fistulas, 562
end to side ileoproctostomy, 567
endoscopic jejunal feeding tube through decompressing gastrostomy, 173
expanded use of suction drains, 469
for long term continent gastrostomy, 73
guided dilators for common bile duct, 569
intraoperative arteriography after carotid endarterectomy, 367
less traumatic subcutaneous tunnel for permanent central venous catheters, 277
modification of catheterization procedure for totally implantable infusion pump, 76
simplified, one stage, of portoazygos disconnection, for massive variceal hemorrhage, 171
Hartmann procedure for acute ulcerative colitis, 462
needle biopsy of skeletal muscle using suction, 466
new, for placement of continuous ambulatory peritoneal dialysis catheters, in infants and children, 362
forceps for removal of biliary tract stones, 360
tube for simultaneous gastric decompression and jejunal alimentation, 369
omental envelope, for excluding small intestine from field of postoperative irradiation to pelvis, 365
operating room, intraoperative communication, 268
popliteal artery to saphenous vein for vascular access for hemodialysis, 358
primary repair of gastroschisis with umbilicoplasty, 464
proximal, decompression by tube appendicostomy with pull through procedure in pediatric operations, 168
reversal end insertion, with EEA stapler, for rectal anastomosis, 266
simple, for enteral feedings, in patients on ventilators, 83
for resection of uncinate process, during pancreatectomy, 166
for revascularization of homografts of liver, with variant right hepatic artery from superior mesenteric artery, 474
of wedge liver biopsy, 354
small tube peritoneovenous shunting for management of neonatal intractable ascites, 273
staining, methylothionine chloride tetramethylthionine chloride, for intraoperative localization of parathyroid glands, in secondary hyperparathyroidism, 42
streamlined fluorescein photography, 356
television choledochoscopy, 176
universal tunneling device, 470
use, of Amplatz heparin-coated wire guide for placement of Hickman catheter, 81
of EEA stapling device in anastomosis of small intestine, 163
of surgical stapler to obliterate left atrial appendage, 565
of vena cava to extend right renal vein in cadaveric transplants, 279
and wide clinical implementation using Wick catheter for compartment pressure measurement, 207
venovenous bypass without systemic anticoagulation for transplantation of human liver, 270
Surgical Pros and Cons
70–71; 71–72; 160–161; 161–162; 352; 459; 460–461

TETANUS
continuing problem of, 307
Thorax
surgery, closed tube, and prophylactic antibiotics, 259
incision, of chest wall, esophagogastrectomy without, for carcinoma of cardia and lower part of esophagus, 49
wounds, shotgun, clinical review of, 148
Thrombocytopenia
secondary to portal hypertension, splenectomy is contraindicated for, 233
Thrombosis
therapy for delayed occlusion of knitted Dacron grafts in axillofemoral, femoropopliteal and femorotibial positions, 491
Thyroid gland
cancer; carcinoma, follicular, factors influencing survival, 409
lesions, in patients with primary hyperparathyroidism, 407
Transplants
experimental, autografts, intrasplenic islet, metabolic response of, 552
grafts, autografts, experimental, intrasplenic islet, metabolic response of, 552
Dacron, in axillofemoral, femoropopliteal and femorotibial positions, thrombolytic therapy for delayed occlusion of, 491
homografts, liver, revascularization, simplified technique, with variant right hepatic artery from superior mesenteric artery, 474
xenografts, porcine, prosthesis, for valve replacement, pregnancy after, 437
kidney, cadaveric, use of vena cava to extend right renal vein in, 279
liver, experimental, and transverse choledochotomy, healing of bile duct anastomosis after, 33
venovenous bypass without systemic anticoagulation, 270
Trauma
abdominal, aortic, critical factors in determining mortality from, 313
blunt, abdomen, peritoneal lavage, in patients with normal mentation and hematuria after, 145
head, acute, energy expenditure, with and without barbiturate therapy, 128
Tumors
adenoma, fibro-, breast, carcinoma in, management of, 99
fibromatosis, aggressive, 124
lymphoma, primary, of gastrointestinal tract, 5
neurofibroma, of head and neck, 534

UMBILICUS
surgery, for primary repair of gastroschisis, 464
Urine
hematuria, peritoneal lavage in patients with, and normal mentation, after blunt trauma, 145
Uterus
experimental, evaluation of danazol influence on, using scanning electron microscopic morphometric and biochemical analyses, 421
pregnancy, and carcinoma of breast, 228
after valve replacement with procine xenograft prosthesis, 437
operative ultrasonography in biliary tract during, 119
tube, inflammation, chlamydial, and periappendicitis, 304

WOUNDS
abdominal, shotgun, clinical review of, 148
experimental, primary healing, effects of cyclosporin A and standard agents on, 135
healing, primary, experimental, effects of cyclosporin A and standard agents on, comparison of, 135
neck, penetrating, exploration, mandatory, critical reappraisal of, 517
thoracic, shotgun, clinical review of, 148
